# Nima Delan Hesar

Urmia, Iran | linkedin.com/in/nima-delanhesar-02022328a | github.com/[your-username]

## SUMMARY

Aspiring Python developer with hands-on experience in scripting, automation, and object-oriented programming. Self-taught through online courses and personal projects, with a strong foundation in Python fundamentals, file handling, and class-based design. Fast learner, highly motivated, and eager to contribute to a professional software team while continuing to grow technically.

## SKILLS

**Languages:** Python **Concepts:** Object-Oriented Programming, File Handling, Automation **Tools:** Git, GitHub **Learning:** SQL, Databases

## PROJECTS

**Automated File Organizer** **(Python)**

- Built a Python script that automatically sorts files into folders by type (Images, Documents, Videos, Audio, Archives, Code).
- Used the os and shutil libraries to scan directories and move files programmatically.

**Inheritance-Based Class System** **(Python)**

- Designed a Person/Student/Teacher class hierarchy demonstrating inheritance and method overriding.
- Practiced modular code organization by splitting classes and logic across multiple files.

## EDUCATION

**Payame Noor University — Urmia, Iran**
Bachelor's Degree, Political Science (Non-continuous) | In Progress

## LANGUAGES

Persian (Native) | English (Conversational, Working Proficiency)
